Otologic and Neurotologic Surgery

A Hands-On Cadaver Workshop

An offering through Practical Anatomy & Surgical Education
Saint Louis University School of Medicine

Course Co-Directors
Daniel J. Lee, MD, FACS
Anthony A. Mikulec, MD, FACS

November 4–6, 2011
St. Louis, MO
Course Content

Friday, November 4, 2011 (8:00 a.m. – 5:30 p.m.)

**Topics will be presented as Lecture and 3D Cadaver Demonstrations**

- Advances in Drug Delivery for Inner Ear Disease
- Panel Discussion: When To Use IT Drug Delivery
- Clinic Cartilage Button Tympanoplasty
- Stapedectomy Minus Prosthesis (STAMP)
- Primary and Revision Stapes Surgery
- Panel Discussion: Stapes Surgery
- Hands-On Cadaver Lab Session
- Endoscopic Transcanal Approach to Limited Middle Ear Cholesteatoma
- Extended Transcanal Endoscopic Approach to Cholesteatoma
- Canal Wall Up Mastoidectomy and Facial Recess
- Use of Bone Cements for OCR Surgery
- Hands-On Cadaver Lab Session

Saturday, November 5, 2011 (8:00 a.m. – 6:00 p.m.)

- Osseointegrated Implants
- Implantable Hearing Aids
- Cochlear Implant Surgery
- Hearing Preservation in Cochlear Implant Surgery
- Panel Discussion: Challenges in Cochlear Implant Surgery
- Canal Wall Down Mastoidectomy
- Hands-On Cadaver Lab Session
- Workup of the Dizzy Patient
- Endolymphatic Sac Surgery
- Posterior Canal Plugging for BPV
- Work-Up and Management of Superior Canal Dehiscence
- Temporal Bone Resection
- Hands-On Cadaver Lab Session

Sunday, November 6, 2011 (8:00 a.m. – 4:30 p.m.)

- Facial Nerve Decompression
- Labyrinthectomy and Vestibular Nerve Section
- Middle Fossa – Management of Tegmen Dehiscence and Meningoencephalocele
- Hands-On Cadaver Lab Session
- Vestibular Schwannoma Surgery
- Stereotactic Radiation Therapy for the Neurotologist
- Panel Discussion: Vestibular Schwannoma Surgery
- Hands-On Cadaver Lab Session

**Workshop Location:** PASE Learning Center at 3839 Lindell Boulevard, St. Louis, MO 63108.
Learning Objectives

The last decade has brought with it multiple advances in the operative management of the otologic patient. This course is designed to ensure that otolaryngologists have the latest techniques at their disposal and are familiar with state-of-the-art management options. It will provide the opportunity for surgeons to enhance their skills in a variety of surgical approaches to the ear, temporal bone and skull base. By completing this workshop participants will have an in-depth understanding of the following:

- temporal bone anatomy
- inner ear drug delivery
- cochlear implants
- osseointegrated implants
- stapes surgery
- chronic ear surgery
- management of dizzy patients
- semicircular canal dehiscence management
- middle fossa, translabyrinthine and suboccipital approaches to the skull base

CONTINUING EDUCATION

Saint Louis University School of Medicine designates this live activity for a maximum of 23.75 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ACCREDITATION

Saint Louis University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The education the participant gains through our CME activities does not satisfy training requirements to perform the surgery.
